ELECTRONIC COLLECTION EVENT

Saturday, August 1st, 2020, 8:00am-12:00pm

Newtech Recycling Corporate Location/Processing Center
600a Apgar Drive, Somerset, NJ 08873

We are Open–We are Collecting–We are Processing!

NewTech Recycling is classified as an “ESSENTIAL BUSINESS” and is open and fully operational throughout this quarantine period. As a value-added service to our local community and surrounding areas, we are opening up our location for Electronic Collection Events over the next few months as local and County governments get back in service.

We are appreciative of the many years of support we have been shown and want to extend this event to the many people looking for a solution to properly recycle their material.

We are Here to Help!

NEWTECH IS PREPARED and our primary focus is public health and safety. Our fully trained staff will be wearing the proper PPE for their protection and those who are coming to drop off.

We will be on-hand to unload cars or guide in the personal unloading if so desired.

Feel free to call with any questions, or if you have a bulk collection need for a business or local entity. (732) 564-3110.

Material Accepted:

Computers/Laptops/Mainframes/Servers

Printers/Copiers/Fax Machines

CRT Televisions & Monitors

Flat Screen Televisions & Monitors
